WHOLESALE PRICE LIST

FALL 1952 - - - SPRING 1953

A. McGILL & SON
 WHOLESALE NURSERYMEN
 FAIRVIEW, OREGON

TO THE TRADE

In offering the following list of nursery stock, we wish to emphasize the fact that it is grown on non-irrigated soil under natural growing conditions and is well ripened before digging. The long growing season and plentiful rainfall of the Willamette Valley are conducive to rapid growth but proper maturing of all stock is easily controlled by cultivation.

PRICES are based on present market conditions and subject to change without notice. All quotations are subject to previous sale and all prices are made for the use of established nurserymen only.

ALL PRICES F.O.B. FAIRVIEW, OREGON.

TERMS. 2% discount 10 days — Net 60 days from date of invoice for those whose responsibility is known to us. Satisfactory references are required from unknown parties. Interest at 6% per annum will be charged on overdue accounts.

ORDERS are booked subject to crop conditions or errors in count, and with the understanding that same shall be void should injury befall stock because of hail, fire, frost or other cause beyond our control.

GRADE STANDARDS are those adopted by the American Association of Nurserymen.

PACKING. All boxing or baling charges at cost. No charge is made when stock is packed in bulk in a car.

SHIPPING. In making our Eastern shipments, we use combination or pool cars to several distributing points throughout the East and Middle West. This greatly reduces the freight charges and makes our stock as reasonable as any. L.C.L. railroad freight, auto freight or express shipments promptly handled.

INSPECTION CERTIFICATES will be furnished with each shipment.

CLAIMS for any cause must be made promptly on receipt of shipment. Any stock rejected must be reported immediately and held for advice from us as to disposition but in no case should it be returned to us without authority. We will cheerfully allow credit for proven unsatisfactory stock but will not entertain claims after stock has been once accepted.

GUARANTEE. WE GIVE NO WARRANTY, EXPRESS OR IMPLIED, AS TO LIFE, DESCRIPTION, QUALITY, PRODUCTIVENESS, OR ANY OTHER MATTER, OF ANY NURSERY STOCK OR PLANTS THAT WE SELL. SHOULD ANY STOCK PROVE UNTRUE TO NAME AS LABELED, IT IS MUTUALLY AGREED THAT OUR TOTAL LIABILITY, UPON SATISFACTORY PROOF, SHALL BE LIMITED TO OUR REPLACING FREE OR REFUNDING THE PURCHASE PRICE.

Respectfully,

A. MCGILL & SON.

SPECIAL NOTICE

Due to the scarcity of our material and heavy advance sales each year, we have issued no Price List since 1949.

In sending this one to the trade, we wish to call to your attention the fact that, while we are listing all the items we grow, many are already sold out and others limited in quantity. However, we feel it obligatory and courteous to advise our good customers of our schedule of prices and to solicit their future business.

★ This star indicates that we are sold out of that particular grade for this season.

We have steadfastly refused to increase our production to meet the heavy demand for our line of material. Our policy has been and will continue to be "QUALITY FROM VIGILANCE." Expansion beyond the limits of our facilities and personnel will not permit the care necessary for the fulfillment of our motto.

CONSTANT VIGILANCE

"MORAINÉ LOCUST"

(Plant Patent No. 836)

A new and improved form of thornless Honey-locust. Noted for its freedom from seed pods and thorns, graceful vase shape, lace-like foliage, ability to stand almost any growing conditions.

This variety of Honeylocust tree is a patented variety covered by United States Plant Patent No. 836 and is being grown and sold under license from the Patent Owner.

CRIMSON KING MAPLE

(*Acer platanoides schwedleri Nigra*)

Plant Patent No. 735

This new type of Maple holds its rich purplish-red color until the leaves drop in the Fall. Somewhat slower in growth than the Schwedler Maple it is by far the most striking shade tree to be introduced in many years.

We are growing it under license from the Patent Owner.

A Real Novelty

NORWAY MAPLE, CRIMSON KING

Acer platanoides schwedleri nigra. Patent No. 735

CRIMSON KING is a beautiful form of Schwedler Maple originated in Europe. It is brilliant crimson all through the summer months. CRIMSON KING has been under observation in America for ten years and has kept its brilliant coloring all through the season both in the East and on the Pacific Coast. *Write for prices.*
